SUMMARY

Passionate Undergraduate in Informatics Engineering with a specialization in Frontend Web Development. Proficient in creating dynamic websites using JavaScript, TypeScript, React, Vue.js, and Tailwind CSS. Completed an intensive fullstack web development bootcamp organized by Alkademi and supported by AWS. Strong team player and quick learner, dedicated to applying and enhancing technical skills in a professional setting. Actively pursuing personal projects to deepen expertise and stay current with industry trends.

EXPERIENCE

- Web Developer

Alkademi - AWS in Communities ↗

05/2023 - 08/2023

 - Learn full-stack development: frontend (HTML, CSS, JavaScript, Git, Tailwind CSS, Vue.js, Nuxt.js) and backend (Node.js, Express.js, SQL, Sequelize).
 - Understand key concepts like Single Page Applications (SPA) and routing with Vue Router.
 - Participate in web application development using Node.js, Express.js, MySQL, and Sequelize.
 - Follow the Software Development Life Cycle (SDLC) and best practices in software development.
 - Work effectively in a team of frontend and backend developers to deliver creative technical solutions.

EDUCATION

- Informatics Engineering

Bani Saleh University - Bachelor of Science

Cumulative GPA: 3.6

09/2023 - Present
- Science Major

MA PINK 03 - High School Diploma

Graduated with an average score of 87.97.

07/2018 - 05/2021

SKILLS

- | | |
|--------------|------------|
| HTML5 | React |
| CSS3 | Vue JS |
| Tailwind CSS | Nuxt JS |
| Bootstrap | Node JS |
| JavaScript | Express JS |
| TypeScript | Sequelize |

PROJECTS

Frontend Developer

08/2024 - 08/2024

Berita Kini ↗

- Developed a News Website: Successfully created "Berita Kini," a sleek and informative static news website during the Technical Frontend Internship MSIB Batch 7 program.
- Implemented Figma Design: Followed detailed Figma designs to ensure a visually appealing and user-friendly interface.
- Integrated API Data: Consumed data from the Berita Indonesia API, providing users with up-to-date news information.
- Enhanced User Experience: Designed a clean, responsive interface that allows users to easily browse news by category.

Frontend Developer

07/2024 - 10/2024

Night Movie ↗

- Built a Scalable Platform: Developed "Night Movie," a responsive movie streaming platform using React, TypeScript, and TailwindCSS.
- Enhanced User Navigation: Implemented efficient search and filtering options by genre, release date, and popularity.
- Optimized Performance: Utilized React Query for quick data loading and seamless user experience.
- Modular Design: Created a modular architecture for future enhancements, including user accounts and personalized recommendations.

Frontend Developer

07/2023 - 07/2023

Aspirasi Desa ↗

- Full-Stack Development: Contributed to "Aspirasi Desa," a comprehensive web application built during the intensive Alkademi-AWS community bootcamp.
- Modern Frontend Implementation: Developed a responsive and visually appealing user interface using Nuxt and Tailwind.
- Effective Integration: Collaborated closely with the backend team to seamlessly integrate frontend and backend functionalities, enhancing performance.
- Project Management & Collaboration: Actively participated in daily stand-ups and used Trello for efficient task management, ensuring smooth communication and teamwork.

Backend Developer

06/2023 - 06/2023

Laundry API ↗

- Developed a Robust Backend Service: Created "Laundry API," a backend service for a laundry management application during the Bootcamp Pesilat Alkademi - AWS in Communities.
- Utilized Modern Technologies: Built the API using Node.js, Express, MySQL, and Sequelize for efficient data handling of orders, services, and customers.
- Demonstrated Backend Proficiency: Successfully completed the project to showcase a strong understanding of backend development and data management.

COURSES

FullStack Web Developer ↗

01/2022 - 06/2022

ITBOX

- Completed a course in full-stack JavaScript development, covering HTML, CSS, and advanced JavaScript, as well as Node.js and Express.js.
